Manager vs. Machine

Extracting alpha using quantitative methods

- The only **investor focused** quantitative finance event in Europe
- **Taking the lid off the black box:** quant investment demystified
- **Compare and assess quantitative strategies:** determine the right strategies for your investment goals
- **Learn advanced tools and techniques** for portfolio management
- **Capture quant generated alpha** in your portfolio

“Quant investing provides a flexible tool for market neutral strategies, portable alpha and dynamic extension strategies tailored to track the benchmark of choice. Conferences such as this provide an excellent opportunity for investors to become better informed and to dispel some of the myths that quant equals high risk and opacity.”

Melissa Hill, Managing Partner, **Sabre Fund Management**
